0 7/ Feb 29, 2016; 2 yrs ago ( 2016-02-29), , and Internet site Yahoo! Messenger (occasionally abbreviated Y!Meters) was an -backed and provided.

Also provided PC-tó-PC, PC-tó-Phone and Phoné-to-PC support, file transfers, webcam hosting, text message messaging provider, and conversation areas in several types.. I tried it on my Mac Pro and my Macbook Pro - same result with each machine I also deleted every file associated with Yahoo Messenger on my Mac Pro and reinstalled it twice - no change.
